A unique opportunity to buy a building plot right next to vineyards and mature trees on the outskirts of the wine-growing town of Valtice. The location of the plot guarantees welcome peace in a beautiful landscape and views of the beautiful countryside.

Utility networks are brought to this slightly sloping plot of land: electricity, water, sewerage, and preparation for an optical cable. Access to the property is via a new lit access road. The maximum buildability is 20%. A few other building plots are available in the neighborhood, so a total of 8 new family houses can be built here.

The plot is located in a wonderful place on the edge of the development, approx. 3 minutes by car from the picturesque historical center of Valtice. The city has a high-quality infrastructure: kindergarten and elementary school, secondary winery school, hospital, pharmacies, shops, restaurants and cafes. The dominant feature here is the castle surrounded by a park with romantic buildings. The city is easily accessible by train and bus, and you can easily get to the D2 highway by car.
