Garage	Yes
Cellar	Yes
PENB	B
Reference number	35945

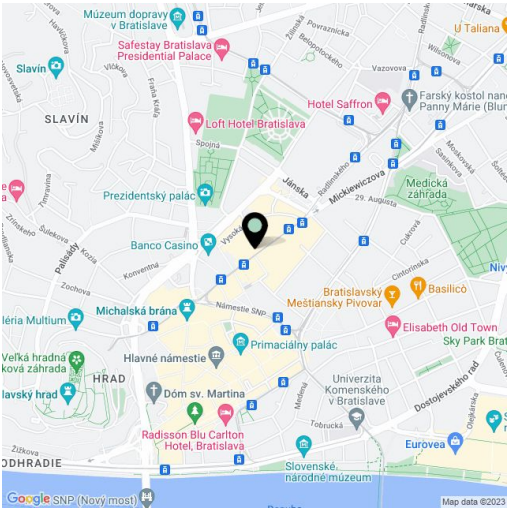

This premium one-bedroom apartment on the 5th floor of the Schön Residence is characterized by its above-standard floor area, which almost identically copies the original layout from 1943. The pleasant southwesterly orientation of the apartment and its oversized French windows with a view of the historic building across the street creates an authentic Old Town atmosphere. The building stands on Obchodná Street in a neighborhood with complete urban amenities that is close to the historic city center.

The layout of the apartment consists of an entrance hall, a bathroom with a preparation for a washing machine, toilet, and Italian shower with a bathtub, a bedroom with a dressing room, and a social zone with a living room with a kitchen and dining area (35 sq. m.). The apartment is flooded in daylight thanks to its practically designed layout, ceiling heights of 2.9 m, and French windows, and is equipped to a standard that includes a video entry phone, underfloor heating, a preparation for air-conditioning, a Sherlock security door, and soundproof insulated windows, which ensure maximum soundproofing.

The apartment is part of the architecturally significant multifunctional Schön building on Obchodná Street, which is currently being thoroughly reconstructed in order to preserve this original Functionalist gem from the first half of the 20th century. The complete reconstruction of the building includes the replacement of the roof, new plumbing and electrics, surface treatment of walls, exteriors, as well as the renovation of the building's entrance hall. The seven-story residence will retain its original multifunctionality: the first two floors will consist of commercial and office space, including a grocery store and a traditional Italian restaurant.

Obchodná is one of Old Town Bratislava's most important streets and has been that way since the 18th century. Throughout its length, it consists of buildings with commercial and office space, services, cafes and restaurants, which together create a lively urban atmosphere. There are public transport stops right by the building; the center is a five-minute walk away. The street was completely renovated in 2005-6 and the city is currently revitalizing it.

Interior 72.15. It is possible to purchase a garage parking space for EUR 24,000.

* Area of the unit according to the Civil Code. The area consists of the sum total area of the entire unit bounded by perimeter walls.
